

The screenshot shows a web browser window displaying the Brown University Library website. The page title is "code-best-practices — project-info". The main heading is "project: xslt_service". Below this, there is a section titled "BUL code-check 86%" with a list of items:

- code is versioned: yes
- has public code-url: yes
- is responsive: n/a
- contains lightweight data-reporting: **no**
- is accessible: n/a
- data is discoverable: n/a
- has site-checker entry: yes
- contact: birkin_diana@brown.edu

At the bottom of the checklist section, it says: "BUL developers, [log-in](#) to see additional info, and use the [admin](#) to create or update project-entries."
